

**ANTALYA
AKEV UNIVERSITY**

ABOUT US

Antalya Akev University was established by the Akev Foundation, which has over many years of experience in Education, with the aim of transforming education-related experiences into academic potential and raising research-oriented and successful graduates. will be at the forefront of science on a global scale.

AKEV, which started its educational activities in the 2015-2016 academic year, is proud to open its doors to the scientists of the future with its prestigious and expert academic staff, classrooms and laboratories equipped with the latest technology, and socially vibrant campus life. In addition to internship and career opportunities to prepare our students for life, opportunities that will enable them to develop in the fields of culture, art, social responsibility and sports are also offered.

In order to carry out AKEV's internationalization policy and exchange programs for all activities, the International Relations Office (OIR) was established to serve as the Center for supporting international partnerships, cooperating with other units, and providing the University's international representation, organize and manage global events, assist in academic planning within the framework of the Bologna Process/EHEA (European Higher Education Area), carry out all mobility activities, support the mobility of students / staff and the development of opportunities for international experiences and understanding, international consulting students and recruitment, AKEV to provide opportunities for students to study abroad.

OIR organizes information days for students and staff for all Erasmus-related programs and selection procedures and announces them continuously via e-mail, social media, University web page and faculties panels.

OIR helps develop and maintain AKEV's diverse international collaborations with research and education and student/staff exchange links with institutions of academic excellence around the world.
